

SPACE CONCEPT IDEAS

Our proposal is to frame the new church and ancillary buildings with a public square and/or courtyard for all residents and visitors to Grahame Park to enjoy.

At this early design stage we would like you to tell us what key elements you would like us to consider in our designs.

Please can you write down your thoughts on the pieces of paper provided and insert these in to the Ideas Box.

We have provided some images to stimulate ideas. These are all numbered on the display boards so that you can tell us which you particularly like. Again please simply write down the reference number and insert these in the box.

If you know of any historic or cultural ties to the area that you would like to see incorporated into the designs then please also tell us about these or insert a picture, quotation or story and contact name for us to consider early next year.

We will gather all your thoughts and ideas w.b. 9th January.

THANK YOU FOR YOUR INTEREST

All plans will be subject to planning approval and the overall commercial viability of the scheme.
